CLASS OF 2005

SENIORS

Dedication

The class of 2005 proudly dedicates this year's yearbook to Mr. Rose.

Mr. Rose,

The words physics and interesting are rarely seen together, and yet, for the past few years the two are inseparable. We are very privileged to have you with us at Telstar High School. With your charisma and obvious love of teaching, physics has become a favorite class amongst the students. Replacing tedious math problems with on hands projects and candy has made the concept of 'applied physics' something that stays with us even when we leave the classroom.

You also breathed new life into a drama department most had abandoned, bringing us entertaining theater featuring everything from greasers to murderous writers to a ship of pirates. We look forward to returning as alumni students to see even more plays featuring our very own local talent.

The class of 2005 will remember you not only as an awe-inspiring teacher, but also as a friend.

- Haruko

Thanks to all my friends and especially my family, I would have never made it without all of you.

High school was growing up. Like everything else there were good times, bad times, and lots of hard work; but without all of high school's experiences I would be going nowhere fast. I am grateful to my friends, family, and teachers for support. I also want to say that I will always remember the fun I've had with my friends. Of course, even with all the good times I've had, I hope I never have to look back on these as the best years of my life... This is just the beginning.

Megan K. Bailey

Mark, Lynn, Andrew, and Matthew thank you for teaching me things about life that I would never figure out on my own. You are my guiding lights. Jessica L., Kelsie, and Amber you are my best friends. Thank you for always being there when I needed you. Well, it's something else around here. I'm glad I'm finally outta here. It sure doesn't "flyby" like everybody says it does, but I had a couple good times. Beating on the accords with Mattie, Ben lil-bri and everyone else. Partying at Patch Mt. And out at the cemetery. Beating on Alexa's cars with Ryan and Jason. Almost crashing every time I got in the neon with Steveo. Riding sleds to school with Brown, Dough and Brock. It ain't that tired!

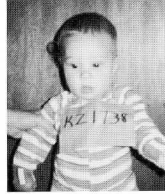

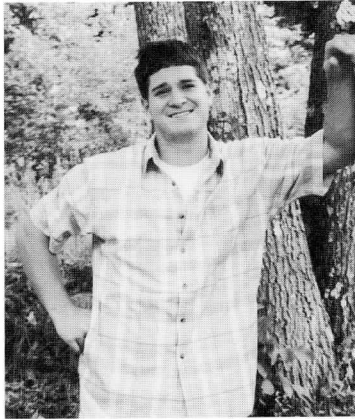

Nikolas A. Bennett

Once upon a time in the land of the Munchkins, conflict arose between two tribes. Located in the Valley of Smiles were the Happies, a ruthless gang bent on spreading hugs and kindness throughout the land. However, atop the dark and eerie Mount Doom lived an unhappy tribe that felt the influence of the Happies must be stopped. To counter the Happies' latest advance into the snow-covered plains, a powerful warrior was sent to crush the opposing tribe. Poofy, the most feared knight of the Doods, set out at once. As the warrior secretly passed by the base of a cliff at the edge of the Happies' camp, he felt something catch in his throat and coughed. Suddenly, a great rumbling was felt and as Poofy lifted his head in the direction of the disturbance, he was immediately pushed to the ground by a wall of snow and buried instantaneously. The Happies observed this episode and as a precaution moved on, leaving the fearsome warrior behind forever.

"Every human being on this earth is born with a tragedy, and it isn't original sin. He's born with the tragedy that he has to grow up. That he has to leave the nest, the security, and go out to do battle. He has to lose everything that is lovely and fight for a new loveliness of his own making, and it's a tragedy. A lot of people don't have the courage to do it." - Helen Hayes/"We all have big changes in our lives that are more or less a second chance." - Harrison Ford/"What's money? A man is a success if he gets up in the morning and goes to bed at night and in between does what he wants to do." - Bob Dylan/Thank you for everyone who has been there, friends, family, my wonderful girlfriend Laura, and especially my parents. Mr. Rose, you are by far one of the greatest teachers I have ever had the privilege of learning from, and I also consider you a great friend. The senior year was the best year because I made a lot of friends. It was fun to watch them play basketball at lunch (even though I would get hit with the ball) I thought it was nice. My senior year is going kind of fast and it is kind of fun. I am going to miss Candy, Mike, Rachel, Buck and Kenny. I will probably miss all of my teachers that I have this year. The one thing that I won't miss is homework. My mom and dad have supported me a lot. My brother has helped me with math homework. Thank you.

Senior year has finally come, and now I have to sum up everything about high school into a paragraph. Where to begin. 4 years ago we walked up those stairs as freshman and thought we were on top of the world. So much has changed and yet so little. Now we have to leave the place that was home for the last 4 years of our life and step into a world of unknowns, and yet, we still feel like we're on top of the world. Mom, thanks for always supporting me, I always knew someone was in my corner. Dad, you showed me how to be an adult, someday I hope to be half the man you are. To my friends, you made the good times great and the bad times bearable. I hope you all know who you are because I know that only after I am gone will your influence be apparent to me. A laundry list of memories are a dime a dozen to write them would be to trivialize them.

Kaylee M. Smith

I made it. I thought that this day would never come. Thanks to my Mother you help me the most I don't think that I could have made it if you weren't there. You stayed strong when I wanted to give up. I think that's what made me come all this way, it was for you. Thanks to all my friends for being there. I know that things change, but I will still remember all the good times and the bad times. Brandon you got a diploma so I wanted to follow in your foot steps and get one too, if you can do it so can I. I love you and we have had some great times. Hilary you stuck it out all the way, we stayed together in this place and got it done. Michelle you didn't graduate at Telstar, but from the get go you could never stand this place so you stayed strong and found an alternative and got it done, and graduated. Every one else that I didn't write about I didn't forget you. I hope that after we all Graduate we will all try to stay in touch some how and some way. Class of 2005 its been great.

Douglas J. Swan

It's about time we finally made it. Thanks to my mom and dad for putting up with me and all my friends and my sister thanks for being there for me. Sylvia W. Thompson

STUDENT LIFE

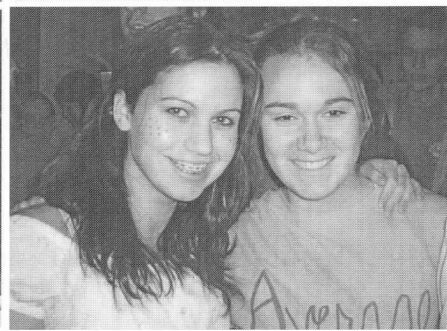

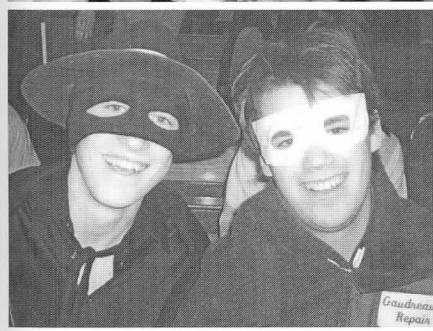

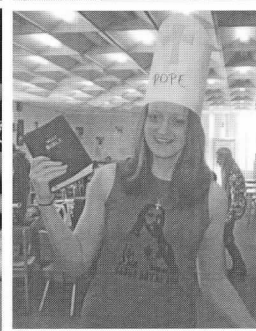

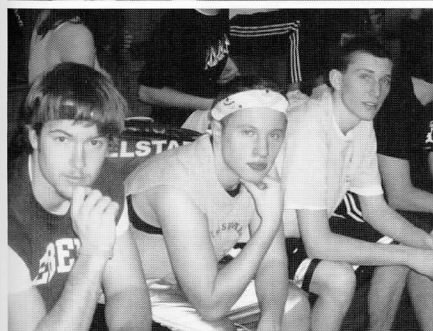

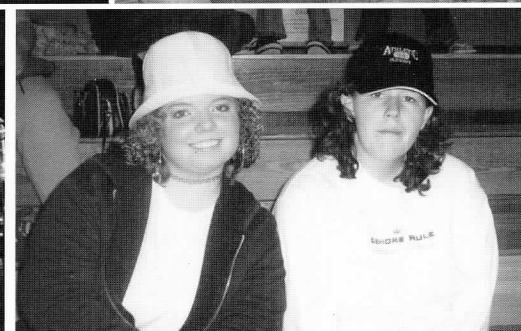

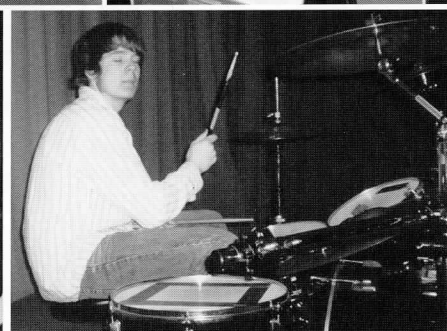

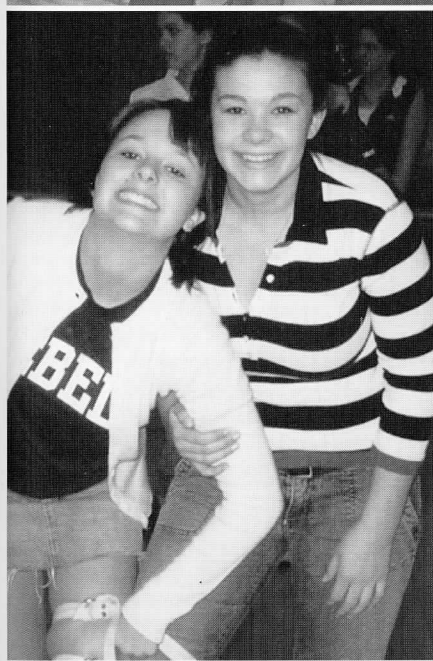

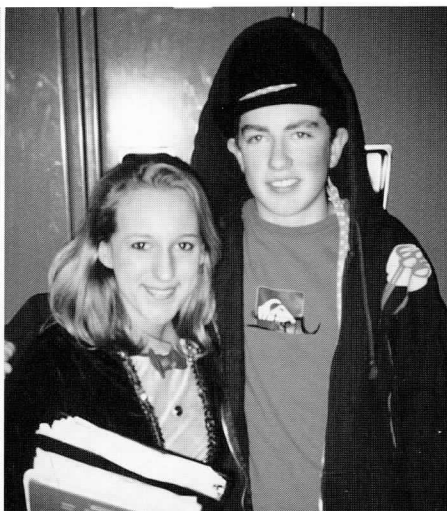

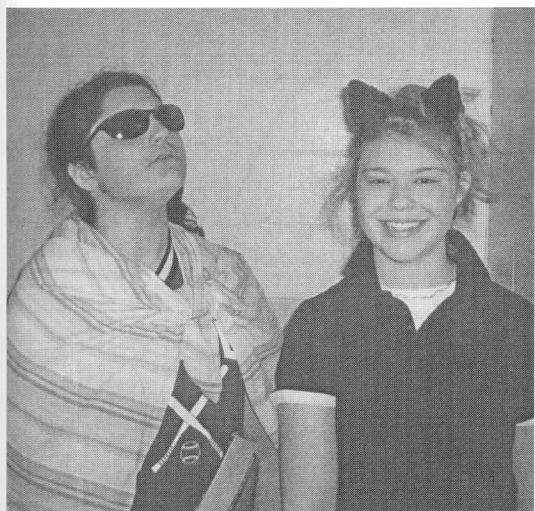

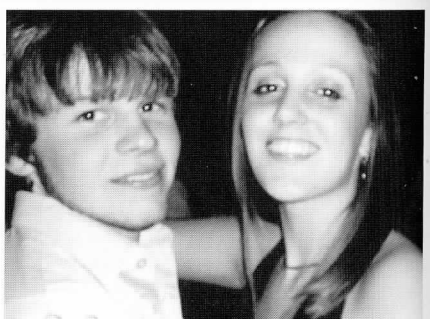

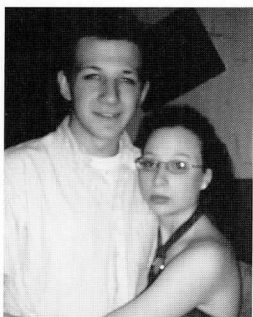

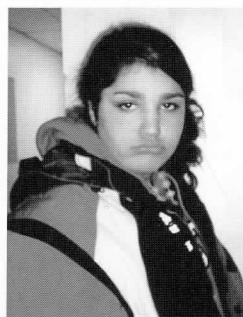

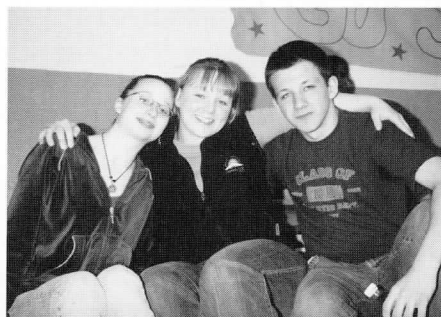

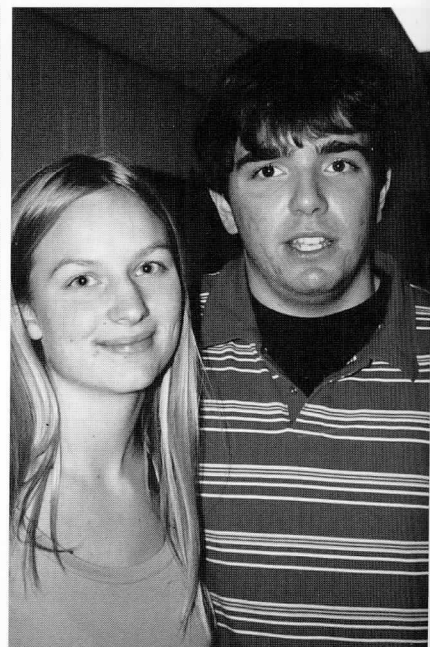

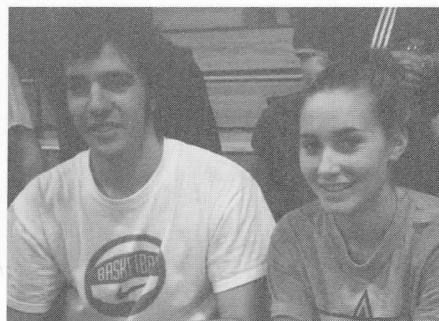

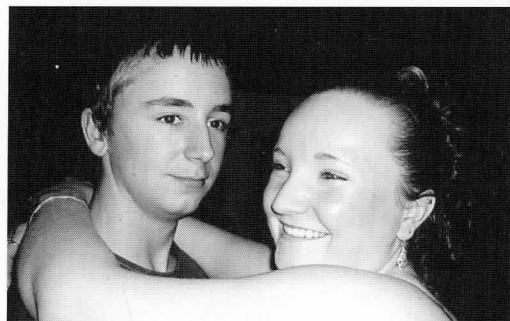

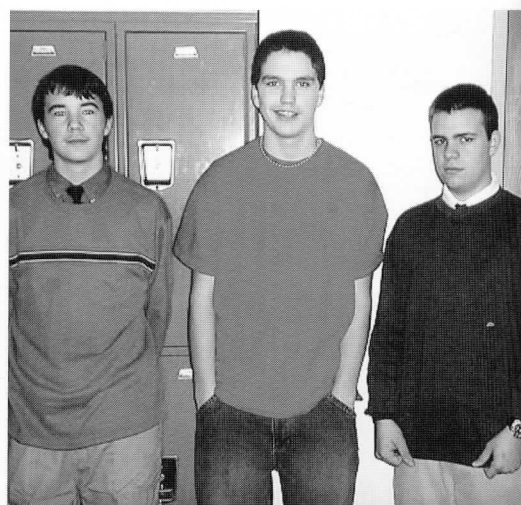

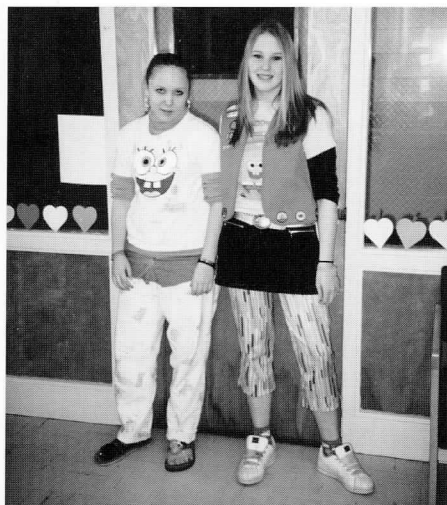

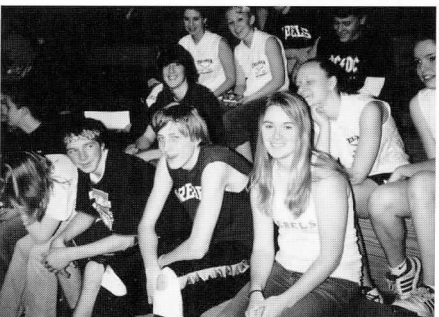

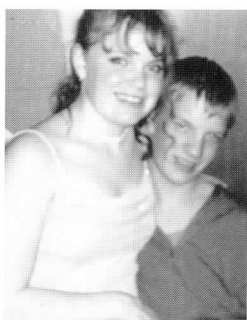

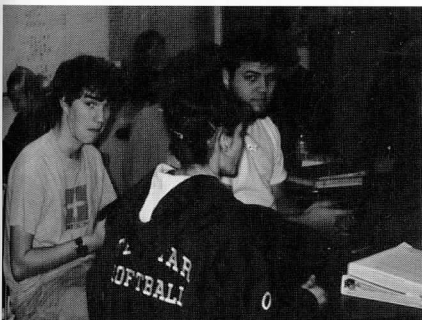

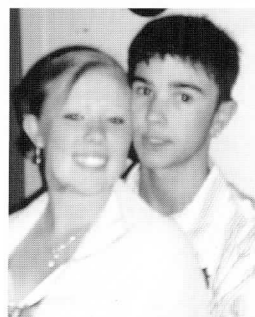

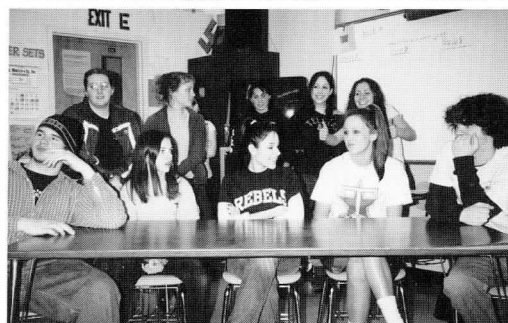

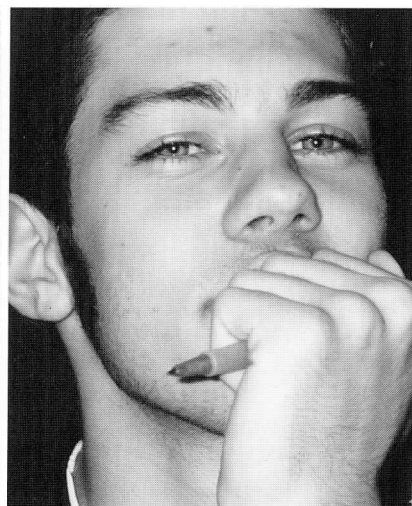

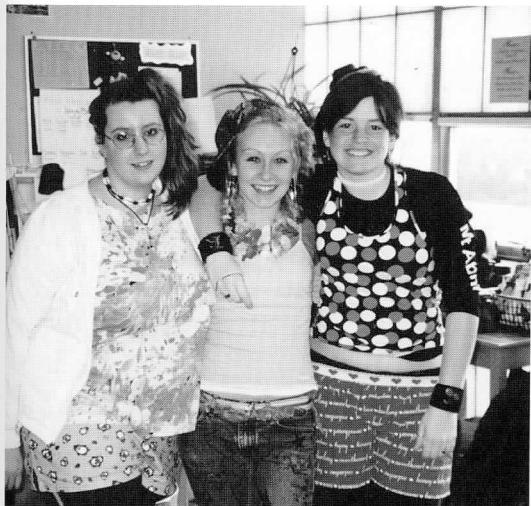

TM & © Warner Bros. Entertainment Inc. (2014)

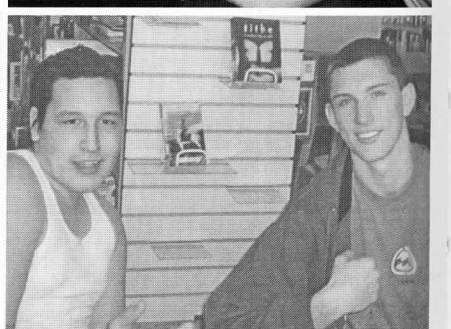

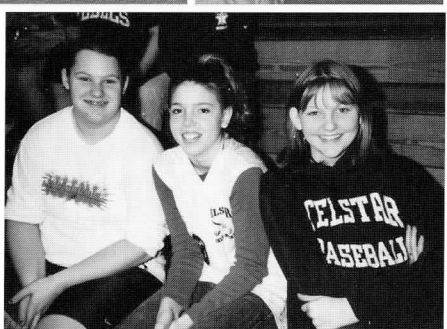

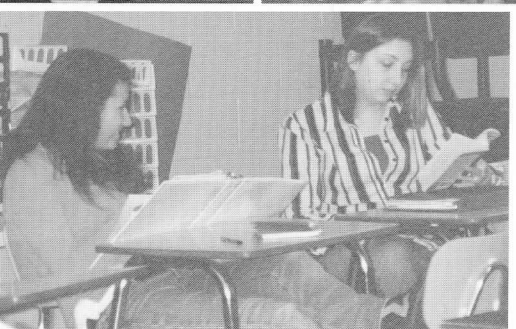

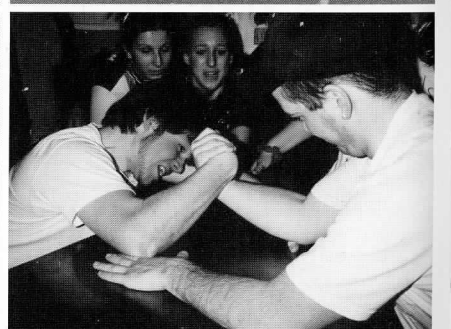

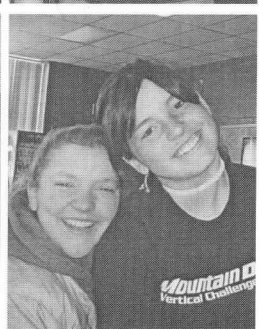

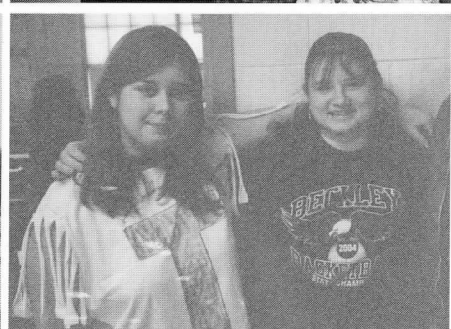

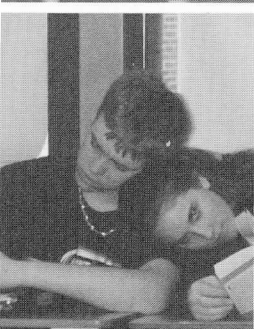

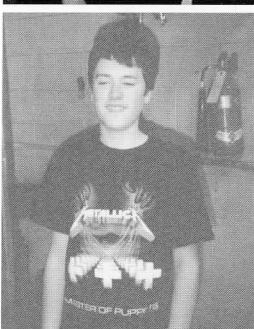

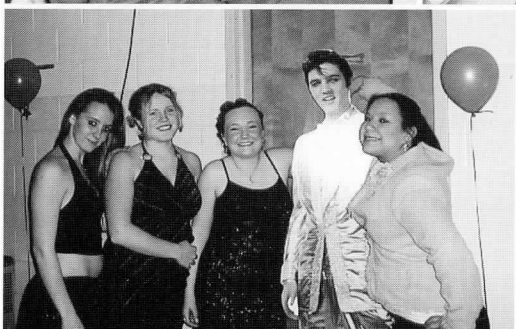

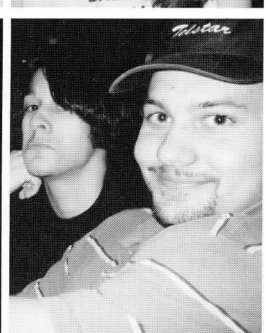

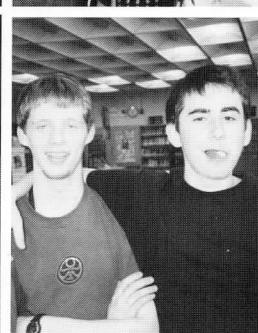

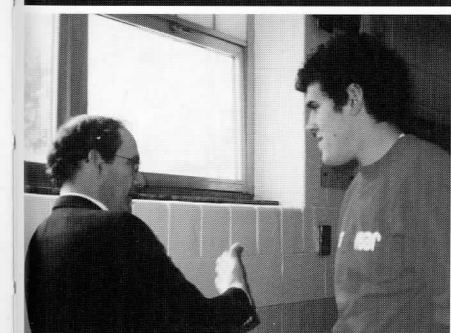

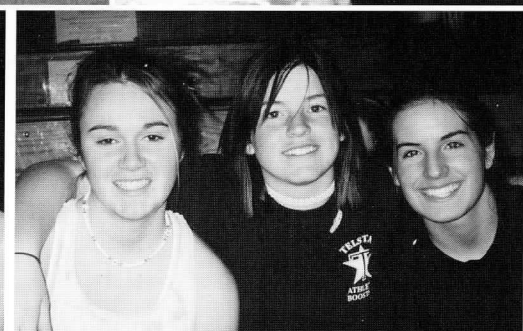

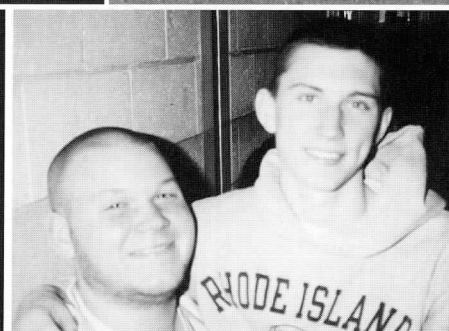

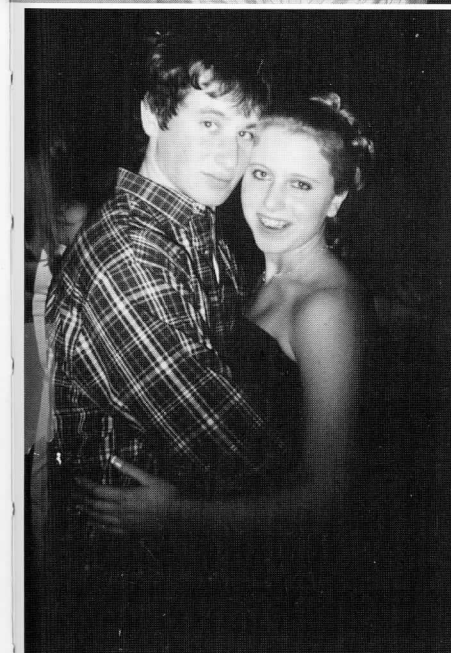

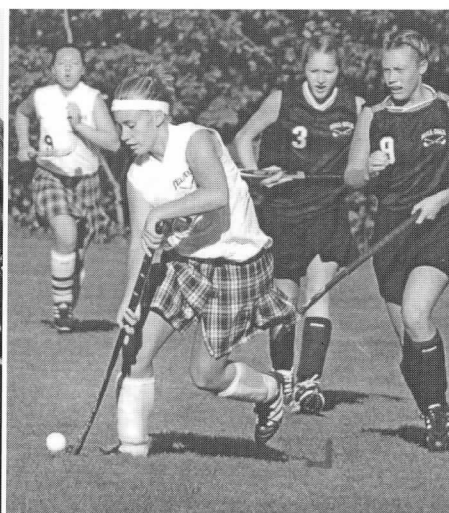

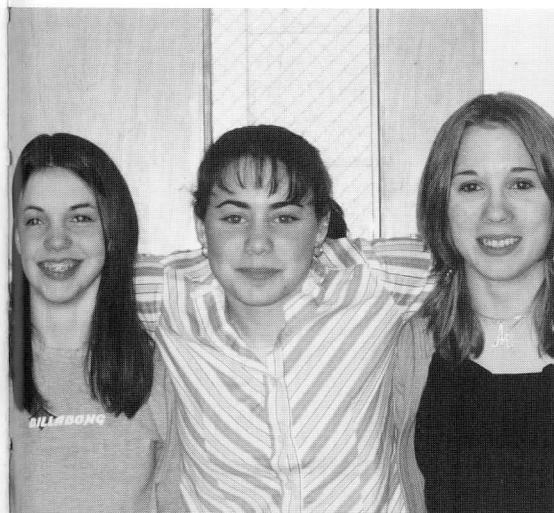

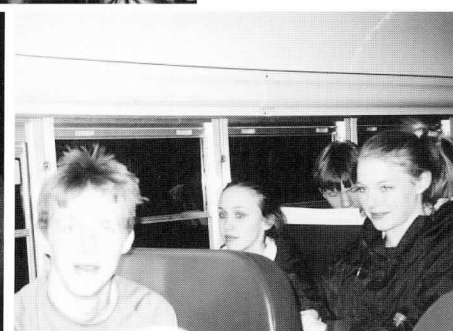

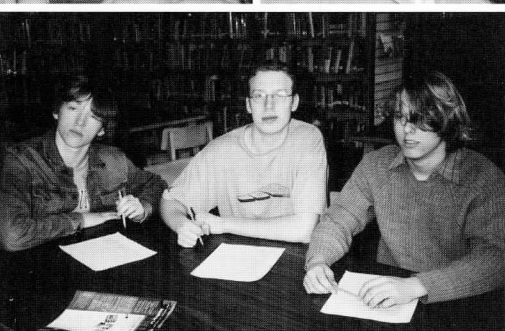

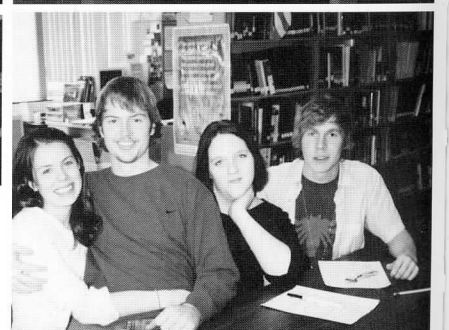

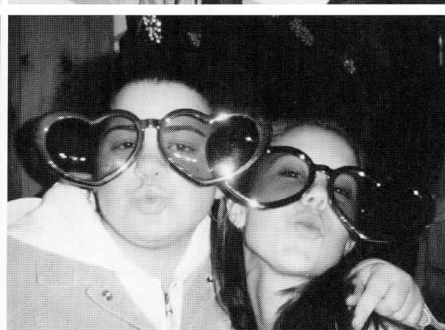

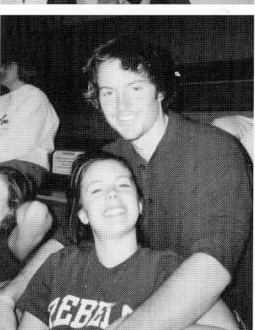

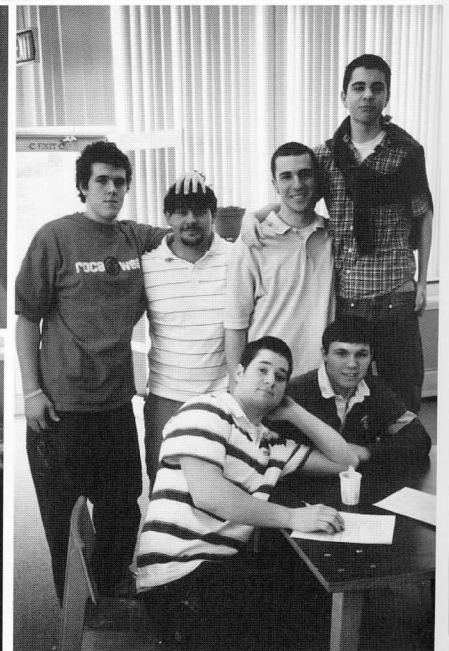

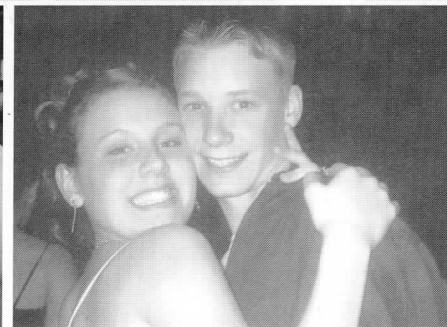

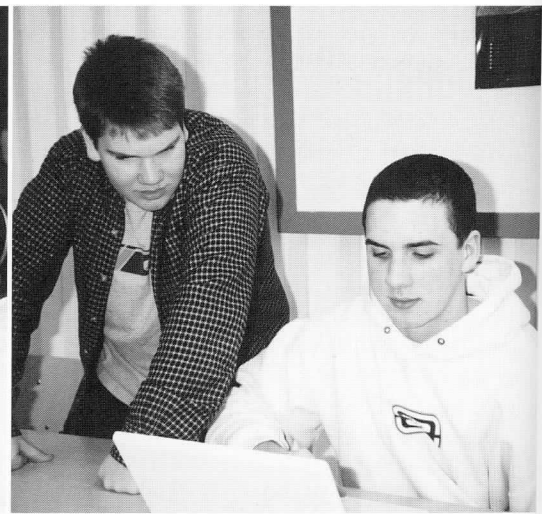

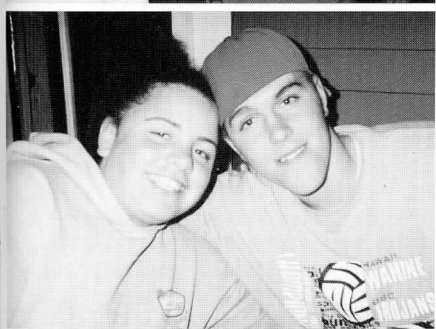

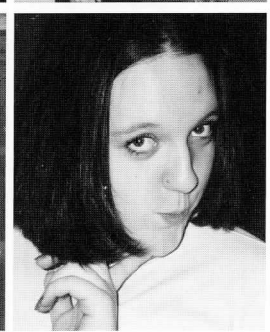

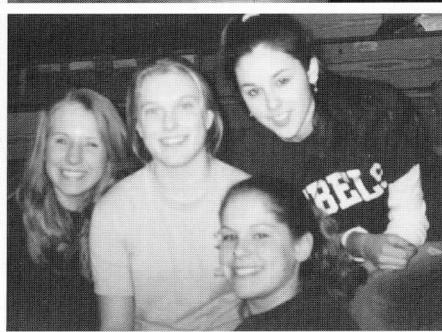

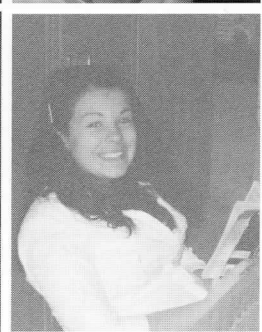

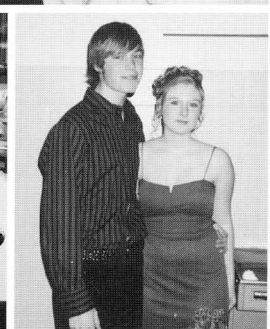

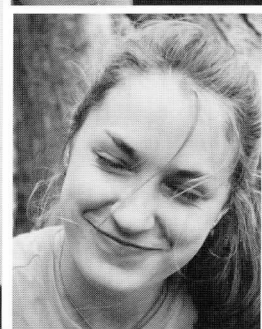

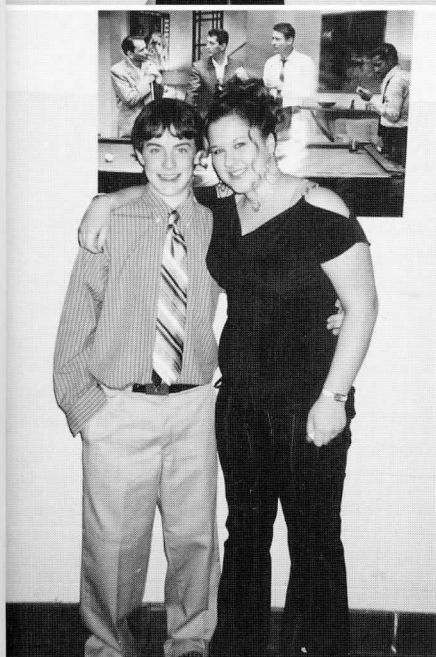

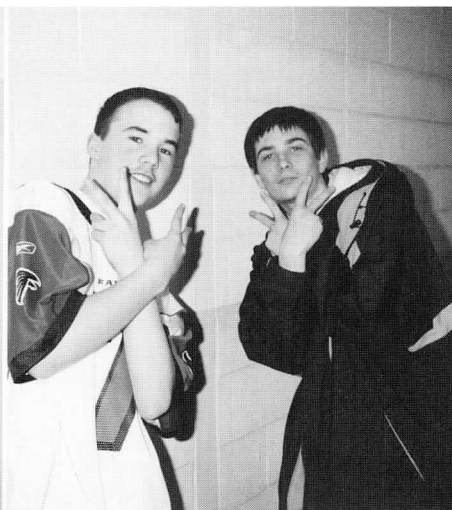

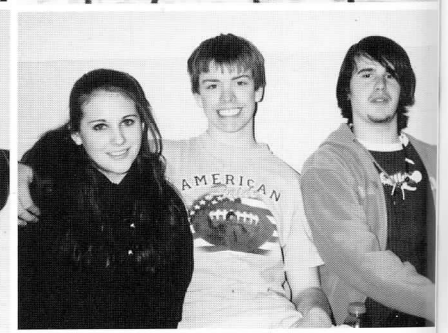

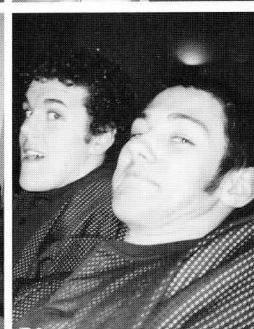

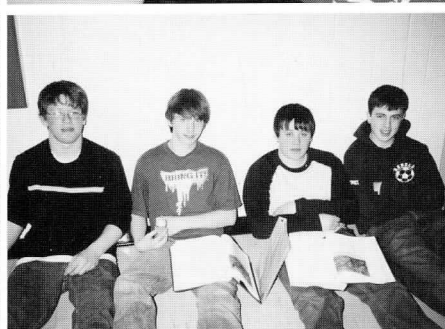

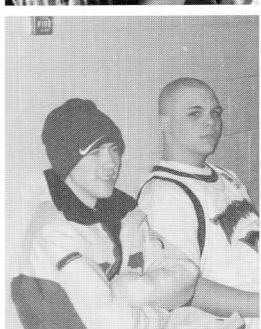

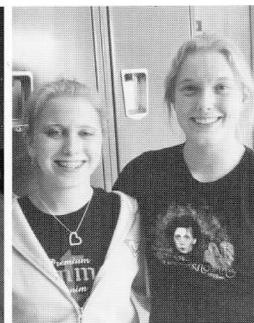

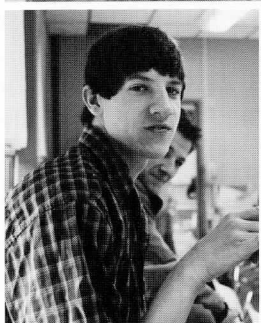

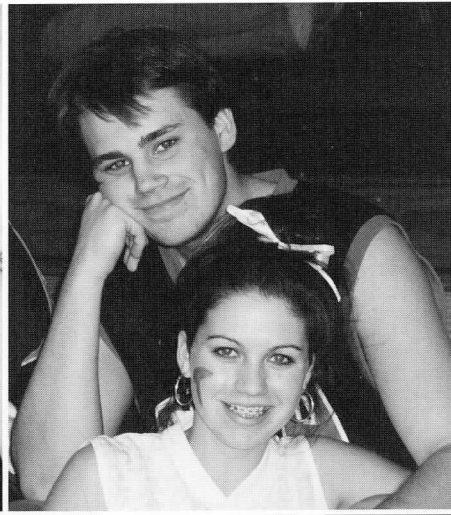

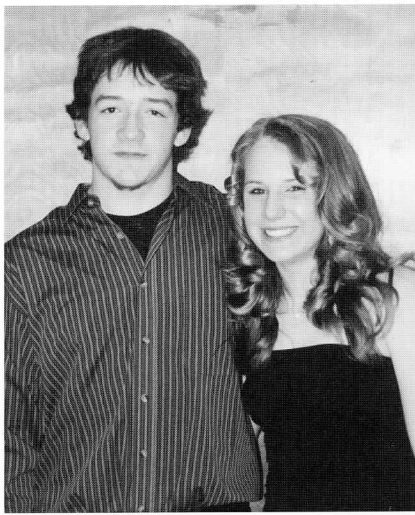

Lauren we are all so proud of you. We tried to come up with just one saying that was perfect for all of us, but we couldn't. So here it is; a page just for you of how over the past 18 years you have touched all of our lives.

Dad and I will never forget that Wednesday in May when you came into the world. Your beautiful smile, perfect little fingers and the loud wail that came from such a little girl. I guess you could say that was your first performance. Ever since that warm sunny day in May you have continued to bless our family, friends and many others with your beautiful angelic voice, wonderful smile, free spirit, caring, love, and determination to always find the good in every situation and in every one you meet. May you always continue to be the wonderful listener that you are and learn from all those you meet along the way.

Lauren,

I am truly blessed to have been given such a wonderful gift as having you as my daughter. Once you were my little girl, now you are a beautiful, intelligent, talented young woman who is also my friend. I will miss playing cribbage, scrap booking, family nights, singing at the top of our lungs on one of our many trips to Massachusetts, late night shopping trips and your silly antics, playing pool with Kelsie, summers at the lake and our talks. We certainly have faced many challenges throughout the past few years. I know each one has made us both stronger and wiser. Remember Grammy is always looking down on you and she is so proud of what a wonderful young woman you have become. It's your turn now Princess, so follow your dreams, spread your wings and fly!

Love, Mom

Lauren,

I can't believe how fast time has flown. Mom and I are very proud of you and all of your achievements. I have always known your strong will and determination would get you far. I will always remember the many special times we have shared. Never forget our trips to the zoo, Swan Boats in Boston, water skiing, tubing, your first time riding the ATC, driving the boats, summers at the lake, building Igloos and sledding hills, skiing at Bradford, Gunstock and Sunday River. I am very fortunate to have such a talented, intelligent and beautiful daughter.

Love, Dad

Lauren,

I can't believe you are about to embark on the journey of a lifetime. I know that your high hopes and dreams for the future will be realized by you. You have amazed me throughout your brief encounter with life. I know you will see your dreams all the way to fruition because of the determination you possess. Good luck on your journey! You have made me proud to be called your PaPa.

Love, PaPa

Lauren,

You are always our ray of sunshine. We love you so much!

Love, Leigh, Carol, Mark, Lynn, Dennis and Matthew

You've been my big sis for these past
eight years,
We've laughed together and shed some
tears.
We've had harsh words, and pulled some
hair
But against the world
We are a terrific pair.
Our times together are few
I just want to say I LOVE YOU!
Love your little brother Matthew

I've seen you crying,
I've seen your heart broken in two,
I've seen when you are hurting,
and when you are down and blue.
Sometimes you need someone special to
give your heart a gentle tug,
But then sometimes all you really need is
a great big brotherly hug.
I will always be here for you, as you have
always been there for me.
Love, Andrew

Lauren:

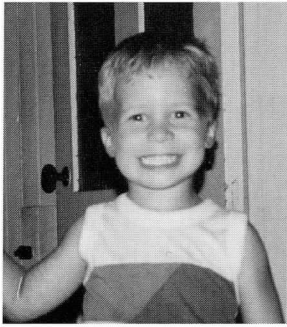

When you were just a little girl we knew
you were special. Time has gone by so
fast as we have watched you grow over
the years. You have become a beautiful,
intelligent, and caring young woman. We
know wherever life takes you as you start
on a new path you will succeed in your
endeavors and make many new friends
along the way, and they will be fortunate
to come to know such a bright and
thoughtful person. We are very
proud of you.

Love Aunt Lisa and Uncle Jeff

Lauren,

First things first.....thank God for moose! With that said, I want to let you know that I am so proud of you for all that you have accomplished. You have gone through a lot to get to this point and there is much that lies ahead. I know that you will succeed in whatever path you choose. You are such a talented and beautiful woman and I am very lucky to have you in my life, not only as my soul mate but as my best friend. I have loved you since I first met you and I promise I will always love you forever. Lauren you complete me. Thank you for being my angel and the answer to my prayers.

Love, Andy

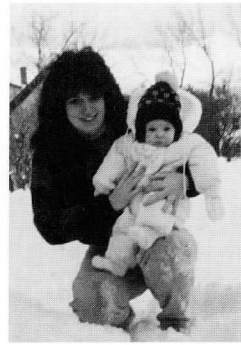

Congratulations Matthew!

It seems like just the other day you were going to School at A.E.S. Time passes so quickly. We have enjoyed watching you grow and mature. It has been a great 18 years. You have taught us so much Matt about living and opportunities that exist outside our little "world." Thank you for that. Always remember that your success in life will be measured by the friends that you have. It is your friends, teachers and family that have helped make you the person that you've become. Be safe, have fun, be honest and don't be afraid to ask for anything, anytime!

"Ideas are like stars; you will not succeed in touching them with your hands. But like the seafaring man on the desert of waters, you choose them as your guides, and following them you will reach your destiny."

- Carl Schurz

We love you very much, Mom & Dad, Whitney & Kayla

The Love Between a Mother and her Child is Forever

The love between a mother and her child is a bond of the strongest kind.

It is a love of the present, interwoven with memories of the past and dreams of the future.

It is strengthened by overcoming obstacles and facing fears and challenges together.

It is having pride in each other and knowing that our love can withstand anything.

It is sacrifice and tears, laughter and hugs.

It is understanding, patience, and believing in each other.

It is wanting only the best for each other and wanting to help anytime there is a need.

It is respect, a hug and unexpected kindness.

It is making time to be together and knowing just what to do and say.

It is an unconditional, forever kind of love -- Barbara Cage

Love always, Mom

I Hope You Dance
By: LeeAnn Womack
 I hope you never lose your sense of wonder
 You get your fill to eat but always keep that hunger
 May you never take one single breath for granted
 God forbid love ever leave you empty handed
 I hope you still feel small when you stand beside the ocean
 Whenever one door closes I hope one more opens
 Promise me that you'll give faith a fighting chance
 And when you get the choice to sit it out or dance

I hope you dance!

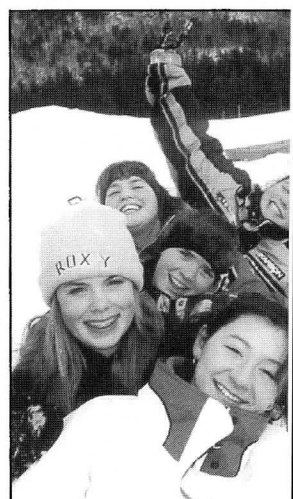

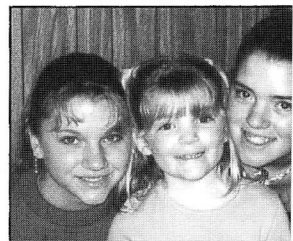

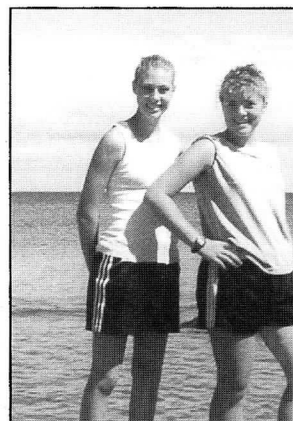

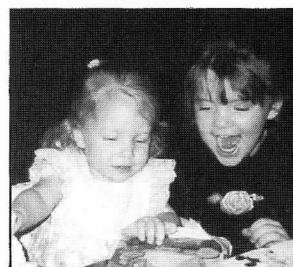

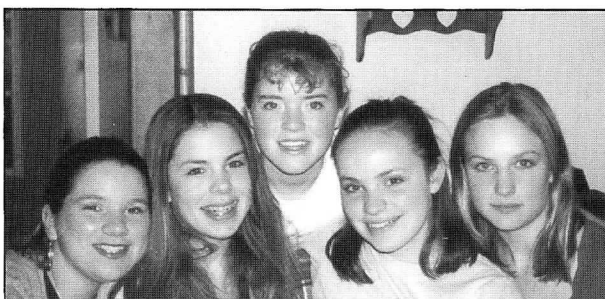

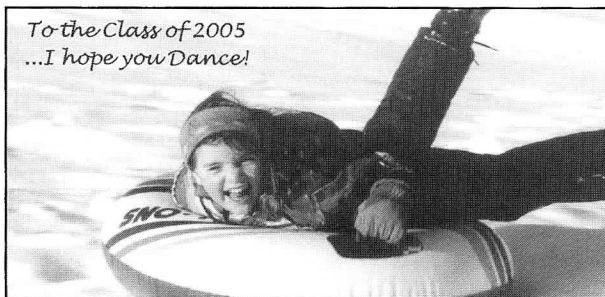

I hope you never fear those mountains in the distance
 Never settle for the path of least resistance
 Livin' might mean takin' chances but they're worth taken'
 Lovin' might be a mistake but it's worth makin'
 Don't let some hell bent heart leave you bitter
 When you come close to sellin' out reconsider
 Give the heavens above more than just a passing glance
 And when you get the choice to sit it out or dance

I hope you dance!

After 86 years, the Boston Red Sox are once again World Champions. To reach the World Series, they complete the greatest comeback in sports history by rebounding from a three games-to-none deficit to defeat the New York Yankees, 4-3. With clutch batting and masterful pitching, the Red Sox complete their journey with a 4-0 sweep of the St. Louis Cardinals, laying claim to the prize they have pursued for nearly nine decades...a World Series ring.

Three by three

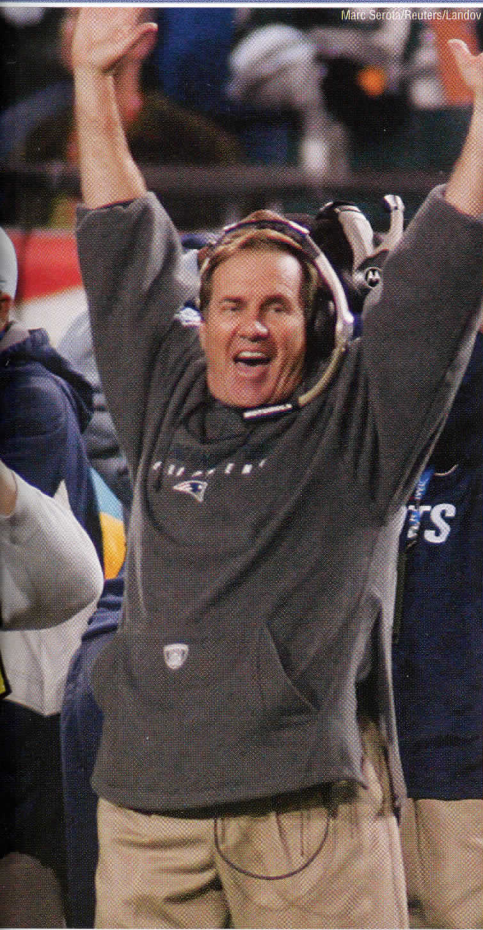

The New England Patriots win their third Super Bowl in four years—each by a three-point margin—to attain NFL Dynasty status. Introduced as a team rather than individuals, the Patriots overcome a strong Philadelphia Eagles defense to win Super Bowl XXXIX, 24-21.

"To me this trophy belongs to these players. They met all comers this year, a very challenging year. We're thrilled to win. These players played great all year, their best in the big games and they deserve it, they really deserve it."

The Patriots tie the record of Vince Lombardi's Green Bay Packers of the 1960s when MVP Deion Branch ties a Super Bowl record with 11 receptions, and Rodney Harrison sparks a stifling defense, to lead the Patriots to their ninth consecutive postseason game. It's a fitting end to a season that also includes an unprecedented run of 21 consecutive victories (over two seasons) and an NFL-record 18 regular-season wins in a row.

① Gillette Stadium, current home of the New England Patriots, is completed for the start of the 2002 season. The stadium (capacity 68,756) has many features that make it unique to the New England heritage, including a picturesque bridge and 12-story high lighthouse.

History of the New England Patriots

Professional football arrives in New England on November 16, 1959, when a group of local businessmen is awarded the eighth and final franchise in the new American Football League. One week later, the Patriots select Northwestern University running back Ron Burton as the franchise's first draft choice.

The Patriots' Hall of Fame includes:

Bruce Armstrong, Tackle, #78

Nick Buoniconti, Linebacker, #85

Gino Cappelletti, Wide Receiver, #20

Bob Dee, Defensive End, #89

Steve Grogan, Quarterback, #14

John Hannah, Guard, #73

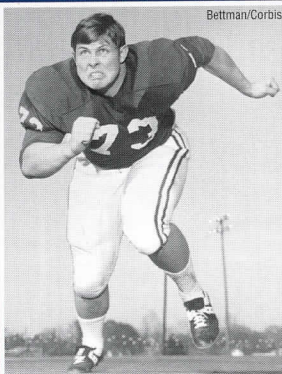

Michael Haynes, Cornerback, #40

Jim Lee Hunt, Defensive Tackle, #79

Steve Nelson, Linebacker, #57

Vito Parilli, Quarterback, #5

Andre Tippett, Linebacker, #56

① Ted Williams of the Red Sox tips his hat to the fans during a farewell "Ted Williams Day" at Fenway Park on April 30, 1952.

- Behind the manual scoreboard in left field is a room where the walls are covered with signatures of players who have played left field through the years.
- No ball has ever been hit over the right field roof.
- In 1940, in an effort to help Ted Williams hit home runs, the Red Sox add the right field bullpens, known as Williamsburg, which reduces the distance to the fence by 23 feet.
- A seat in the right field bleachers is painted red to mark the spot where the longest measurable home run ever hit inside Fenway Park landed. Ted Williams hit the home run on June 9, 1946, off Fred Hutchinson of the Detroit Tigers. It was measured at 502 feet and supposedly crashed through the straw hat of the man sitting in the seat (Section 42, Row 37, Seat 21).
- The New England Patriots are co-tenants at Fenway Park during the mid-60s. To avoid scheduling conflicts with the Red Sox, many of the Patriots' September games were played on the road or at alternate sites. In 1967, the Patriots first "home" game in Fenway Park was October 22.
